```python
import json
import os
import sys

# Start preamble code

# End preamble code

buffer = ''
line_count = 0
for line in sys.stdin:
    buffer += line
    line_count += 1
    if (line_count % 10) == 0:
        print(buffer)
        # Start send events code

        # End send events code

        buffer = ''
```
